ESIGNLIVE™ FOR MICROSOFT SHAREPOINT®
SEND DOCUMENTS FOR E-SIGNATURE DIRECTLY FROM SHAREPOINT

Organizations use Microsoft® SharePoint® to organize, track and store documents for projects and teams. When it comes to getting documents signed however, processes often fall to paper which can cause frustrating delays and even stall projects.

eSignLive™ for Microsoft SharePoint is an integrated solution for preparing, managing and sending documents for e-signature directly from a SharePoint library or your desktop. By ensuring that the process stays 100 percent digital, you can help keep your business and projects moving.

eSignLive for SharePoint handles many different scenarios, including:

· Multiple documents with unlimited page counts and sizes

· Adding signers from Active Directory, a pre-defined group of users or using external email addresses

· Multiple authentication methods

· Built-in reminders and expiration dates

· Serial and parallel signing

· Online and in-person signing

· Signing on mobile devices

Add e-signatures to everyday documents, such as project plans, statements of work (SOW), HR forms, offers, contracts and agreements.

HIGHLIGHTS

Deliver & manage documents in real-time

■ Drag & drop signature blocks and fields into documents

■ Invite customers, partners, suppliers and internal team members to e-sign

■ Automatically archive e-signed documents in SharePoint

■ Share documents with a group of users

■ E-signed documents included embedded audit trails and tamper-evident signatures

**BUILT FOR:** SharePoint 2013   Microsoft® SharePoint 2010

Integrations available for Microsoft SharePoint 2010 and 2013.

Microsoft SharePoint is a trademark of Microsoft.

eSignLive™ by VASCO®

Senders initiate the creation of a transaction from SharePoint (select signers, prepare documents and choose other e-signature options), and:
· Send transactions for signature
· Monitor progress in real-time
· View e-signed documents and the audit trail, stored in SharePoint

Signers receive an email inviting them to e-sign documents. They authenticate themselves, gain access to the document(s) and click to sign.

Administrators create, share and manage templates.

From the e-signature provider that:

· **Powers e-contracting processes for** the largest contracting organization in the world, the General Services Administration (GSA); as well as NASA JPL, the U.S. Air Force, RBC Royal Bank, Bosch Automotive, and pharmaceutical distributors, hospitals and healthcare organizations.

· **Processes more than 600 million documents annually for** some of the world's biggest brands and security conscious organizations, including the U.S. Joint Chiefs of Staff, U.S. Bank, BMW Financial Services, Santander Consumer Bank, RBC Royal Bank of Canada, Country Insurance, 21st Century Insurance, American National, Principal Financial Group, USDA, the entire U.S. Army and many more.

· **Has been repeatedly recognized for outstanding customer service**, including being named 2014 and 2013 Leader in Customer Satisfaction by enterprise software review site G2 Crowd, and an award from GEICO for "dedication, customer focus and fanatical service". In 2013, eSignLive received a top rating of 94% for customer satisfaction, winning Gold in the 2013 Novarica Average Customer Experience (ACE) rankings for the insurance industry.
